### Counting College Students

We are adjusting operations to make sure college students are counted.

- College students living in on-campus housing are counted through their university as part of our Group Quarters Operation, which counts all students living in university owned housing. In addition to college dormitories, the Group Quarters Operation also includes places like nursing homes, group homes, halfway houses and prisons.
- During our recent 2020 Census Group Quarters Advance Contact operation we contacted college/university student housing administrators to get their input on the enumeration methods that will allow students to participate in the 2020 Census.
