**Turtle Mountain Home Visiting will continue to serve families during a Public Health Crisis through Virtual visiting rather than personal visits.**

- Home Visitors will do virtual visits from the office or home with families who have internet capabilities, landlines, or cell phones.
- If families do not have internet capabilities or prefer phone contacts, at least 15 minute phone calls per week will be done with families who chose not to be placed on hold. Check-ins will consist of family-well being, resource connections, activities and games for parent & child interactions.
- Home Visitors will reach out to each family immediately and keep a list of families who do not have internet access and those that do. A time will be scheduled with the families for phone calls, who do not have internet access to stay in touch.
- Virtual visits will be done through Messenger.
- We are limiting office visitors/public due to the health safety of the staff and public.
- Anyone entering the building, will need their temperatures taken and wear a mask.
- All staff must be made available during core work hours either through phone calls, emails, or messages. Supervisor will verify if staff are on a visit through Visit Tracker and Penelope calendars.
- If at any time, you need to stop by the office, please call one of the numbers above.
