The TM Diabetes Prevention Program will continue to serve the members of our community throughout these difficult times.

- Employees will work at the job site and the building will be closed to the general public.
- All public events for the community are postponed until further notice.
- Employees are currently working on ways to educate the public and our clients by creating a virtual educational site to educate on diabetes, physical fitness, and nutrition.
- TM Diabetes Prevention Program understands how critical it is for our clients to promote and practice social distancing. The COVID-19 is detrimental to a person with diabetes way of life and they need to take every precaution possible.
- Both Belcourt Fitness Center and Dunseith Fitness will also remain closed until further notice.
- Both Fitness Center staff will be required to work to properly sanitized equipment and office furnishings until further notice.
- If at any time, you need to stop by the office, please call one of the numbers above.
