Tribal Finance

As the TMBCI Tribe is aware to the state of COVID-19, we are continually addressing the situation as it pertains to our day-to-day operation and making necessary updates and decisions when needed.

Currently, the Tribal Finance Office continues to operate during its core hours, 8am—4:30pm, Monday-Friday. At this time, we are asking that programs and the public to:

1. Please try to limit traffic in and out of the Tribal Building. When possible, please email or call your grant manager with any questions concerning your program.
2. When handing in purchase orders, we are requesting employees to please access the main Tribal Building north entrance door. The south entries are locked at this time and are only to be used by centralized employees until further notice. To any program that uses the Abila E-Requisition system workstation to do your bills, you should use the main Tribal Building north entrance door, as well, and Security can direct you to the workstation.
3. Adhere to your budgets and limit unnecessary spending, while staying in compliance with the requirements of your program/grant. Only make purchases that are necessary during this time. Keep in mind that those purchases should be allowable expenses to your grant, accordingly.
4. Follow the current travel restrictions that were already put into place.
5. For the Medical Assistance and TCAP Programs, when picking up a check for either program, please use the north entrance door to Finance.

Our top priority, as always, is to assist you in the day-to-day progress of your program/grant, and at this time, to ensure the safety and health of all Tribal employees and the public.

Thank you for your cooperation and patience during this time.
